COMPANY HISTORY

JMK Engineering Services (Pty) Ltd, established in 2021, is a multidisciplinary engineering firm with an initial focus on mechanical and electrical engineering services within Africa. Our mission is to supply quality products and cost-effective engineering solutions.

The company is wholly owned by young professionals dedicated to economic growth and empowerment through engineering. Our head office is located in Centurion, Gauteng Province, South Africa. We envision expanding to strategic locations within the SADC region in the near future.

COMPANY DIRECTORSHIP

The company is 100% Women owned, who holds an M.Com in Economics.

The company has enlisted the expertise of Job Kapeta as General Manager. Job brings over 14 years of experience in mechanical engineering and management, including hands-on work in plant operations. A graduate of a mechanical and technical college, he holds an NQF4 in Machinery Shop Engineering and is a qualified Fitter & Turner by trade.

In addition to his technical expertise, Job oversees marketing and management at JMK Engineering Services. His experience spans business development, estimation, and procurement, providing him with a well-rounded understanding of the business. The company also maintains strategic business relationships with local and regional organizations to collaborate as needed.

COMPANY RESOURCES

JMK Engineering Services owns the following resources.

- Head Office premises (Owned).
- Office equipment; desktop computers, laptops, tools and vehicles.

The organization is financially sound, with references available from our bankers, First National Bank.

OUR STRATEGY

Our strategy focuses on innovation in engineering services and consultancy, providing superior solutions tailored to customer needs.

Our Vision

“To be a global leader in innovative engineering solutions, empowering sustainable development and enhancing quality of life through cutting-edge technology, creativity, and unwavering commitment to excellence.”

This vision statement encapsulates several key elements:

- **Global Leadership:** Aspiration to lead on a worldwide scale.
- **Innovation:** Emphasis on pioneering new technologies and methodologies.
- **Sustainability:** Commitment to environmental responsibility and long-term viability.
- **Quality of Life:** Focus on positive impacts on society and individuals.
- **Excellence:** Dedication to superior performance and continuous improvement.

Our Mission

- **Client Accountability:** Adhering to client strategies regarding time, budget, and quality.
- **Value Creation:** Through passion, processes, and systems.
- **Preferred Service Provider:** Ensuring competitive pricing and professional conduct.

OUR STRATEGY

Our Values

- **Responsible Project Management:** Promoting leadership, technical competitiveness, safety, and environmental management.
- **Continuous Professional Development (CPD):** Committed to staff training.
- **Honesty & Integrity:** We keep our promises and operate transparently.
- **Hard Work:** Committed to timely project completion and exceeding expectations.
- **Teamwork:** Open to ideas, taking responsibility, and valuing feedback.
- **Commitment:** Focused on results and continuous improvement.

Innovation

Continuous innovation in planning, design, project management, and support services ensure cost efficiencies and engineering leadership.

Corporate Responsibility and Community Development

We empower local communities by investing in local skills and sponsoring local organizations.

Quality Management Plan

We affirm our dedication to quality through the implementation of a rigorous quality management system that aligns with ISO 9001:2000 standards, as well as meeting customer and legal obligations, all under the active engagement of top management. We recognize that consistent enhancement of our procedures and services is fundamental to delivering excellence. By integrating best-in-class processes, we foster productivity and innovation, resulting in superior product quality.

Occupational Health and Safety Management Plan

Safeguarding the well-being of our employees is paramount to our company. We diligently implement the Occupational Safety and Health Act (OSHACT) both in our workplace and office settings. Ensuring that every employee comprehensively understands the OSHACT is imperative, accompanied by providing first aid training to all staff members. Maintaining a safe and healthy work environment for everyone within our company is of utmost importance to us.
